

CREDIT CARD/DEBIT CARD AUTHORIZATION

GARDENDALE URGENT CARE submits claims to insurance carriers as a convenience to all our patients. At this time we request authorization to balance bill a major credit card or debit card to cover amounts determined by your insurance to be your responsibility.

Upon receipt of an explanation of benefits from your insurance carrier any unpaid portion of your claim will be billed to your credit card or debit card. Should insurance pay in full, your account will not be charged.

All credit card/debit card information will remain absolutely confidential and securely stored by **First Data**. GARDENDALE URGENT CARE will not store any banking account data.

I hereby authorize GARDENDALE URGENT CARE to charge any and all outstanding balances, after insurance company reimbursement or denial, to my credit/debit card. I understand that I will not receive a statement if there is no balance due after processing my credit card for payment.
